

## New XDSL Series Desoldering Nozzles

The new XDSL series desoldering nozzles can offer a working life of up-to twice that of other desoldering nozzles. A high grade stainless steel tube lines the internal diameter of the nozzle to prevent tin erosion and wear of the copper body of the nozzle caused by molten solder, flux and abrasion. For use with WXDP 120 and DSX 120 desoldering irons.

- Long life of up-to twice that of other nozzles
- For use with WXDP 120 and DSX 120 desoldering irons
